DETAILED ACTION

Priority

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Allowable Subject Matter

2. Claims 1-21 are allowed.
3. The following is an examiner's statement of reasons for allowance:

Regarding claim 1:

The closest prior art of record, Curtis et al. (US 2005/0036182), discloses:

A holographic recording apparatus comprising:

means for generating a reference beam and a signal beam (paragraph 5);

a mask for modulating the signal beam with data to generate a modulated signal beam (paragraph 9); and

a hologram medium for storing an interference pattern between the reference beam and the modulated signal beam (paragraph 9),

Curtis does not disclose:

wherein the mask has a first and a second opaque film and a transparent plate inserted therebetween, the first and the second opaque film facing each other,

the first and the second opaque film have a first and a second recording track group, respectively, and

the first and the second recording track group have a plurality of first and second recording tracks, respectively, the first and the second recording tracks being alternately

Art Unit: 2627

arranged, wherein the data to modulate the signal beam therewith are alternately embedded along the first and the second recording tracks such that one of two neighboring recording tracks is one of the first recording tracks and the other is one of the second recording tracks.

Presumably the mask of Curtis has at least one opaque film. Curtis does not mention a second film, and even if there were some reason for providing a second film on the mask, Curtis does not teach or suggest having a first and second set of tracks associated with the first and second films, respectively. Thus the combination of elements in the claim renders it allowable over the prior art of record.

Regarding claims 2-9:

They are allowed due to their dependence on claim 1.

Regarding claims 10-21:

Independent claims 10 and 15 contain language similar to the allowable language of claim 1; claims 11-14 and 16-21 are dependent on these independent claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
